Percentage: 82%

EXPERIENCE

---

The Mothers Cook

Intern

May 2023 - August 2023

Noida, Uttar Pradesh

- Utilized Figma to create initial mock-ups and high-fidelity wire-frames for the company’s website, aligning with design and branding guidelines
- Developed the front-end of the company’s website,implementing responsive and user-friendly designs using HTML, Bootstrap and JavaScript

PROJECTS

---

Chatgpt3 Blog

live

- Created and deployed a dynamic React-based website on Netlify featuring an elegant User Interface with interactive cards, providing seamless access to a curated collection of chat GPT and AI news articles.
- Utilized Node.js for server functionality and custom CSS for styling

Book Read List

GitHub

- Developed a feature-rich web application where users can add, update, and delete their favorite books, showcasing data in both card and table formats. Utilized MongoDB, React, Express, and Node.js, with tailwind CSS for design and Postman for API testing
- Created an intuitive platform that enables users to manage book information, fostering a seamless and user-friendly experience, while also implementing robust data storage and retrieval through MongoDB

JukeBox

live, GitHub

- Music-player website build using technologies HTML, CSS, and JavaScript.
